MERCHANDISING DEPARTMENT

Our Merchandising Department consists of some young and energetic professionals. This dynamic team is led by a heavily experienced merchandising manager who has profound knowledge in procurement, product development, material sourcing, consumption, costing, booking, pattern and all other necessary technical knowledge. There are senior merchandisers, merchandisers, assistant merchandisers & trainee merchandisers who work coherently following a chain of command. The merchandisers deal with every individual orders independently in all aspects of logistic & technical requirements. They strictly follow the Time & Action plan set by merchandising manager. Knitting & Dying department is extensively related to this department on terms of fabric development, knitting-dying production, fabric, color, shade, construction and so on. Their activities are not limited to consumption, costing, booking & sampling only but also they are actively involved in production floors as well.

QUALITY DEPARTMENT

We have strong quality experts team, they are maintaining 4 steps of quality level like first team beginning from yarn, knitting to the good quality fabric, second team maintaining proper way of cutting, third team maintaining stitching quality level & fourth team maintaining finishing up to the shipment. The whole processes are maintained by a quality Manager. He closely monitors each stage of the manufacturing process from fabric selection to designing, cutting, stitching etc., keeping in mind the style and comfort of the wearer. Various quality parameters like shrinkage of the fabric, color fastness, light fastness and other specifications are checked so that our clients get only the best.

HUMAN RESOURCE DEPARTMENT

We are also aware of our workers and employees whom we consider as the heart of our business. In this regard, we have established a Human Resources Department which works as a moderator between the governing body and workers. This department is responsible for the recruitment of workers, their data, salaries, bonus, promotion, leave, medical and other facilities. They continuously look after the production floor to ensure a harmless and congenial atmosphere for the workers. They are also liable for the worker's and factory's safety measurements. For this reason, they arrange different training programs for allover the employees.

WORK STUDY DEPARTMENT

Work Study plays a vital role for the company's growth & development in this competitive business world. Realizing the importance of work study, we have to try to recruit some work study officers who calculate the overall production capacity, train-up the workers to be more skilled, examine the worker's performance and efficiency.

HEALTH CARE

A sound health is the first condition to have the best performance. Therefore, we always keep the production area very neat & clean. We provide pure drinking water for the workers. And for any unexpected situation or accident we have made an emergency volunteer team who will control the situation. We have the arrangement of first-aid box in every floor for initial treatment.
